Assignment No.: 2

“The Jugaad”

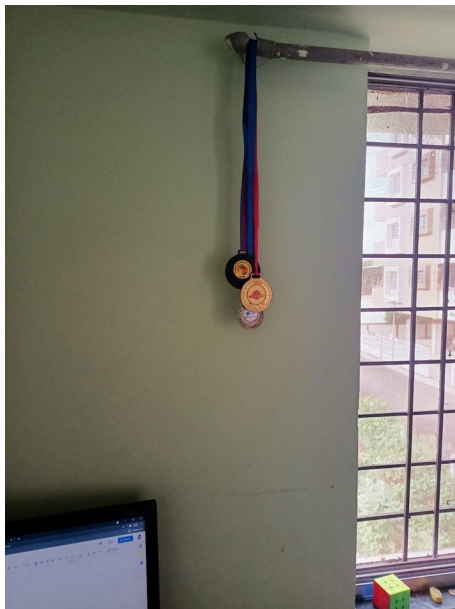

1) Using scrambled cube as a phone stand

Description: So here I am using a scrambled mirror cube as a phone stand. Daily I do lectures on my phone, watch videos on it and sometimes write assignments from it. And I can't hold my phone all the time so I really need a stand. That's why I have made this stand from a cube.

Advantage: 1. Got the chance to use some creativity.
2. Don't have to pay for extra phone stand

2) Using Curtain rods to hang medals

Description: I don't have any good place in my home to place my medals. And looking up to our achievements is really motivating. That's why I have used curtain rods to hang my medals.

Advantages: 1. Don't have to make any special space for it.
2. Don't have to pay for some hooks.

3) Elevating My CPU cabinet

Description: Height of my CPU cabinet is really short. That's why when I connect earphones I really struggle to use them because they won't reach till my head. So I have used a small wooden stool ("*Polpat*") to elevate the CPU a little bit. now i can use the earphones conveniently.

Disadvantage: 1. As i have kept cpu on little height. It might fall down while doing something with cables or using some usb devices.

4) Using kitchen utensils to plant a plant.

Description: As we don't use our old oven utensils in the kitchen. We have planted small plants in it. and planting trees is always a good thing to do.

Advantages: 1. As the utensil is made up of plastic if we have thrown it in garbage. It will increase the plastic waste. Using them in this way is really a great way towards saving nature.
2. Having more plants in the house is always good to maintain a healthy environment.
